

How to Make Lakhs in Dropshipping Without Spending a Single Rupee on Ads

The complete Instagram Theme Page method — step by step. This is exactly how the Ghost Commerce strategy works to generate 2 lakh+ per month from international dropshipping.

REAL RESULTS FROM 3 STORES — ZERO AD SPEND

Total: USD 2,066 in sales | 40 Orders | 3 Stores | Zero Ads

SO WHAT IS GHOST COMMERCE?

Ghost Commerce is dropshipping without running any ads. Instead of paying Facebook or TikTok, you partner with large Instagram niche pages (1M–3M followers) and pay them a small fee — or split profits — to promote your product to their audience. You handle the store and fulfillment. They handle the reach. Zero ad spend. Zero risk. Just pure margin.

THE 5-STEP PROCESS

1 Research Your Niche & Find Theme Pages

Create a new Instagram account in any niche (cats, fitness, home decor, tech, beauty). Follow 100–200 pages in that niche and study their suggested pages. Within days you will have a full map of the biggest pages in your niche.

2 Find Your Winning Product

Scroll through the niche pages and look for products they are actively promoting in posts and stories. If you see the same product being promoted by 10 or more different pages — that is your winner. Multiple pages promoting it = proven demand. No guesswork needed.

3 Build Your Store

Set up a Shopify store with the winning product. Write strong copy, use clean product images, and set up full order fulfillment. Your store must look professional — page owners will check it before agreeing to promote you.

4 Pitch Page Owners via DM

Contact 100 pages in your niche. Expect 10 to reply and agree — a 10% conversion rate is normal. Large pages (1M+ followers) charge \$50-\$100 per promotion slot. Alternatively offer 50% profit sharing so you pay nothing upfront. Make your first message professional — first impression is everything.

5 Run the Promotion & Collect Orders

The page posts your product to their millions of followers. Orders come into your store. You fulfill them. One promotion on a 1M follower page can generate approximately Rs. 30,000 net profit. With 10-30 pages running simultaneously, you are looking at lakhs per month.

THE MATH

What	Numbers
Page size	1 Million followers
Buyers from 1 promotion (approx 0.003%)	~30 customers
Revenue per promotion	~Rs. 75,000
Partner share (50%)	~Rs. 37,500
NET PROFIT (1 page, 1 promotion)	~Rs. 27,500
With 30 pages simultaneously	Rs. 3-7 Lakh/month

TIPS THAT ACTUALLY MATTER

Contact 100 pages, expect 10 to say yes.

10% reply rate is normal. Just keep DMing. Numbers game.

Validate before building.

If 10+ pages already sell it, it works. Do not guess.

Your store must look professional.

They will check your store. Bad store = no deal.

Match product to niche perfectly.

Cat product on a cat page. Kitchen gadget on a home page. Wrong match = no sales.

Build rapport before pitching the deal.

Ask their rate first. Chat a bit. Then suggest 50/50. Way more natural.

Scale by adding more pages.

1 page = 1 income stream. 30 pages = 30 streams. No limit.
